

National Association of Accessibility Consultants

Dear Colleague,

We are pleased to invite you to become a Charter Member of the National Association of Accessibility Consultants.

Membership

The National Association of Accessibility Consultants is a not-for-profit professional association whose membership consists primarily of individuals and businesses addressing accessibility issues. The National Association's members include architects, engineers, design professionals, contractors, attorneys, public officials, private consultants, manufacturers and suppliers. Members of the National Association of Accessibility Consultants commit to uphold the National Association's Standards of Practice and Code of Ethics.

Purpose

The purpose of the National Association of Accessibility Consultants is to promote the highest standards of competence and professionalism among its members in addressing the various federal accessibility laws and standards including the Americans with Disabilities Act, The Rehabilitation Act, the Fair Housing Act and the Architectural Barriers Act.

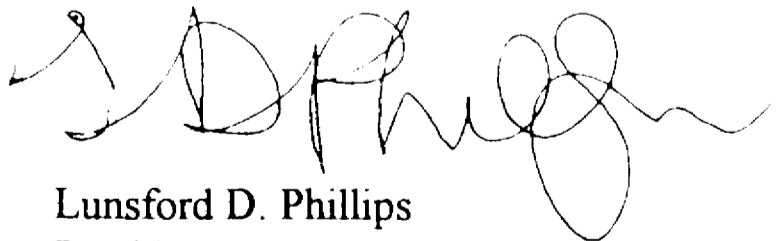

Mission

The National Association of Accessibility Consultants will conduct seminars and workshops for Members as well as the general public. The National Association will offer specialized education and training to Members interested in becoming Certified Accessibility Consultants (CAC). Members who pass the certification tests are entitled to use the "CAC" designation after their name. The CAC designation is an earned credential, and the best possible evidence of an accessibility consultant's competence and professionalism.

Sincerely,

The Board of Directors

NATIONAL ASSOCIATION OF ACCESSIBILITY CONSULTANTS

Lunsford D. Phillips
President

National Association of Accessibility Consultants

OFFICERS

Lunsford Dole Phillips

President

Mr. Phillips is a spinal-cord injured civil rights attorney based in Hawaii who has litigated over 100 ADA, ABA, 504 and Fair Housing Act cases. He has been active in the independent living movement for twenty years and is nationally recognized as an advocate for disability rights.

Bruce M. Clark

Vice President

Mr. Clark is the president and principal consultant of Accessibility Planning & Consulting, Inc. based in Honolulu, Hawaii. He is a well known speaker and instructor on accessibility issues and the built environment. Mr. Clark was instrumental in bringing the 1994 Pacific ADA Conference to Hawaii. He has participated in several ADA litigation settlement negotiations through the federal courts in both DOJ and private actions.

Brent W. Beals

Secretary / Treasurer

Mr. Beals is the principal consultant of Arizona Accessibility Consultants based in Mesa, Arizona. As a licensed building contractor Mr. Beals possesses that practical perspective of accessibility issues. He has long been active in promoting universal design and currently advises state and local governments among his many other clients.

Natl. Association of the Deaf
Honolulu, Hawaii

National Association of Accessibility Consultants

MISSION

ACCESSIBLE AND BARRIER FREE ENVIRONMENTS

MISSION STATEMENT

As the population ages and medical technology advances, public access issues become a major factor in the design and construction of all facilities. Independent access along with supportive technology enable Americans previously restricted by barriers to enter the economic environment, which strengthens the economy and social fabric of America. Increased access and barrier free design enhances the innovation and productivity of the American marketplace. Growing access to social and cultural events and venues widens the horizons of those who have been denied participation because of physical and perceptual barriers. An independently accessible environment enriches us all, allowing active participation in business, politics, entertainment and the arts by everyone.

NATIONAL ASSOCIATION GOALS

Facilitate communication between individuals and organizations with shared interests.

Promote compliance with federal accessibility laws and standards.

Advance accessibility through universal design.
